FUN book?  
Do you do  
Dewey?

Let's Play BINGO!

In 1876, Melvil Dewey invented a way to organize libraries. He created 10 classifications, each representing the 100s from 0-999. Each of these is broken down into 10 subgroups of 10s. We can continue to divide these groupings down, using decimals when necessary, to have a number for every idea, every book in the library.
